WORKLOAD 50% OR 25%  
20 OR 10 HOURS PER WEEK
- ✓ DISTANCE LEARNING
- ✓ ACADEMIC CERTIFICATE

**STARTING  
10 JUNE 2024**

Academic training  
course for teachers  
and chess tutors

With the initiative and efforts of the European Chess Union (ECU), the European Parliament published a Declaration on 15 March 2012 on the introduction of the programme “Chess in School” for the educational systems of the European Union.

Prior to this, several European countries had introduced Chess as a curriculum option for primary schools. Following the Declaration, the EU educational programme Erasmus funded several projects in the field of Chess and Education with the active participation of the European Chess Union and its Educational Commission members. These included projects on chess and games pedagogy as well as chess and mathematics.

This training course is primarily aimed at teachers in Primary Education as well as those attending Teacher Training institutions. More generally, it is suitable for anyone interested in how chess and strategy games can contribute to education in terms of the social and intellectual development of children. One of the primary focuses of the initiative is to provide academic training courses for teachers and chess tutors to gain valuable skills applicable in the classroom.

## DELIVERY

The course is conducted using the online Moodle platform in English. Students are expected to work independently on weekly set tasks including interactive activities, course content, a reference reading list, video presentations and live sessions.

### **Part-time**

#### **Workload 50% - 20 hours per week**

10 June 2024 - 29 September 2024  
(320 hours, 3 months and 20 days)

### **Part-time**

#### **Workload 25% - 10 hours per week**

10 June 2024 - 19 January 2025  
(320 hours, 7 months and 10 days)

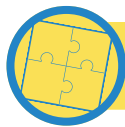

Teachers play a  
vital role in  
empowering  
children  
for the  
demands of the  
21st century

## OBJECTIVES

Upon completion of the program, the graduate will:

- Be familiar with the history and culture of this ancient game and its international importance as a mind sport.
  - Understand the rules and the basic tactics and strategies used in chess.
  - Have a good understanding of *Chess in Education* and how to use chess as an educational tool.
  - Be able to conduct educational activities using chess as a learning tool.
  - Understand the benefits of chess for children and the potential contribution that chess can make in schools.
- Use effective age-appropriate methods for teaching and introduce chess to kindergarten and primary school students.
  - Interact with and be guided by experienced chess tutors accredited by the European Chess Union.

THE SMART METHOD TO TEACH CHESS**

**5**

**CROSS-CURRICULAR ACTIVITIES,  
INSTRUCTION MATERIALS FOR THE CLASSROOM**

**6**

**PREPARATION FOR A SPECIFIC TARGET  
GROUP OF CHILDREN - SPECIAL PROJECT**

## ACCREDITATION

The training course provides a lifelong Academic Certificate from the University of the Aegean. The academic content constitutes 12.8 ECTS academic points. The “Chess in Primary Education” Academic Certificate and the ECTS points may be used in educational systems in Europe and worldwide.

An Academic Certificate is an objective indicator that you have the skills and knowledge to work as a school chess teacher in schools. Schools are always looking for teachers who can lead extracurricular subjects across age ranges. If you are already a school teacher, the certificate is Continuing Professional Development for your teaching career which may be taken into account for recruitment, retention and promotion.

The ECTS points derived from this course can be combined with those derived from other academic courses in order to reach a target number of ECTS points to complete your educational qualifications.

The European Credit Transfer and Accumulation System (ECTS) is a metric of the European Higher Education Area for making comparisons between courses more transparent. It helps students to move between countries and to have their academic qualifications and study periods recognised abroad. ECTS has been adopted by most of the countries in the European Higher Education Area as the national credit system and is increasingly used elsewhere.

The ECU will continue to promote this Academic Certificate as the professional title for those undertaking a career involving chess teaching in Europe and in some other countries outside Europe which have adopted the European education model.

## REGISTRATION

To register and secure your position please complete the [online registration form](#).

### Fees

The fee for the training course leading to the Academic Certificate is 550 Euros. This can be paid in full at registration or in two instalments comprising 275 Euros at registration and 275 Euros at the halfway point of the course.
